

 Lawrence Livermore
National Laboratory

Join us and make *YOUR* mark on the World!

For more than 65 years, Lawrence Livermore National Laboratory has been applying science and technology in the interest of national security and solving global challenges.

A National Mission

Lawrence Livermore National Laboratory (LLNL) has a vital, enduring mission: to make the nation and world safer and more secure through world class science, technology and engineering (ST&E). As an innovative “new ideas” laboratory, we deliver game changing solutions to important problems that arise in a rapidly changing world.

Our outstanding workforce has access to one of a kind research capabilities. People and facilities combine to provide the foundation for LLNL’s continuing success. Opportunities to conduct research in cutting edge facilities help to attract, train, and retain top notch scientists and engineers to ensure the ST&E breakthroughs required by our national security missions.

Career Opportunities in Multiple Fields

We are always seeking individuals from multi-disciplined backgrounds. Leveraging your unique skillsets, you have acquired can be applied in many opportunities such as the following roles:

- Mechanical Engineers
- Electrical Engineers
- Cyber Security Researchers
- Energy Modeling
- Physicists
- Computational Physicists
- Nuclear Operations
- Intelligence Analysts
- IT Operations/Solutions
- Software Engineers
- Data Scientists
- Chemical Engineers
- ES&H Specialists
- Project Managers
- Project Schedulers
- Security Operations
- Facility Managers
- Aerospace Engineers
- Geoscientists
- Civil Engineers
- Nuclear Engineers
- Chemists
- Computer Scientists
- Financial Analyst

Apply for these roles and many more!
